**PLATINUM
PROTECTION
SINGLE-SOURCE
WARRANTY**

SEE INSIDE FOR DETAILS

Two Trusted Brands One Comprehensive Warranty

Englert, Inc. and SOPREMA, Inc. have joined forces to set a national standard in single-source roofing warranties.

The Englert®/SOPREMA® Platinum Protection Single-Source Warranty is beneficial to architects, contractors and building owners alike. From concept to execution to protection, these two world-renowned corporations have joined forces to create the ultimate roofing solution.

Here are just some of the features of the Englert®/SOPREMA® alliance:

- **Do It Once, Do It Right –**

Unlike other roofing systems, these two top-of-the-line systems will provide many years of protection under one single-source warranty, making it the smart financial choice for the long term.

- **Endless Possibilities –**

Using the depth of two world-class roofing companies, architects now have the ability to create new and exciting roofing schematics using combinations of SBS modified membrane and metal roofing.

- **Quality Product –**

Two premium products that set the industry standard in terms of longevity, quality and performance.

- **Sustainability and Flexibility –**

Aside from the energy efficiency of metal roofing and the longevity of the SBS modified membrane, these systems are perfect for integration with photovoltaic (PV) solar systems.

- **Easy on the Eyes –**

Metal roofing and SBS modified membrane are two aesthetically pleasing roofing systems.

- **Strong Partnership –**

Two companies that work directly with the contractor no third party contact, no markup and no disconnect.

- **Security –**

The warranty is backed by two companies with more than 140 combined years of expertise in the roofing industry.

- **Peace of Mind –**

No finger-pointing. A single point of contact for any roofing problems, means you call one number and get fast, guaranteed results.

About Englert, Inc.

A pioneer in the portable rollforming industry, Englert, Inc. provides a full line of architectural and structural standing seam metal roofing products that are Energy STAR® and LEED compliant.

Englert, Inc. and SOPREMA, Inc. are two independent companies with different cultures. Each will continue to do what they do best, only enhanced by a warranty issued by one party, covering both products on one job, and resulting in zero risk of cross-cultural problems.

About SOPREMA, Inc.

Turning 100 years old this year, SOPREMA, Inc. was founded in 1908 in Strasbourg, France, and is one of the largest roofing products manufacturers in the world.
